

THE ULTIMATE ROOFTOP JUNCTION BOX

The JB-1 is the Ultimate Rooftop Junction Box. It's Fast and Effective and Guaranteed not to leak. EZ's 3 patented layers of water protection work seamlessly to ensure no rain will leak into your home.

FAST + EFFECTIVE

- Enter through 3 different sidewalls. Great for Wire Management.
- Stainless steel bolts and brass inserts. No galling, cross-threading or stripping.
- Weep Hole. Allows any moisture due to condensation to escape the box safely.

NO LEAK PROMISE

- V-shaped design is the first layer of defense against rainwater intrusion.
- Seamless flashing integrates into the shingle course to ensure proper water-shedding.
- Sealant is installed around the factory molded sealant guide as an additional leak prevention means.

HIGH QUALITY

- Made from advanced durable polycarbonate + superior components, UL1741, Type 3R
